

BMS 1 Q16 gw supply

P, 1/15

March 1, 2016

1000 Entered BMS w/ Chas after getting ice.

D. Lindstrand had told me that there were 22 coolers at shipping. They were transported to the Ton bldg.

Went to Ton. Unloaded eq/meat chas & I had in the vehicle.

Started to open all the coolers and check what they contained.

Did part of segregation of the containers in the coolers

1200 Left to start doing gw levels

1420-1535 - Had meeting w/ D. Lindstrand about the segregation of bottles, QA/CLC frequency, potential sequence of well supply

1535- Continued w/ Wn measurements

1800- Wn measurements were completed

Went to the Ton to unload and did some preparation for tomorrow.

1845- Left BMS

BMS 1016 SW sample

829,5

March 2, 2016

925 - Entered BMS after getting Ice.
Entered w/ J. Del Valle
Went to the TOW to prep for SW
sampling.

Calibrated the instrument.

Loaded the equipment needed

1115. Went to UP-2.

1245. Started to demob to UP-1

1410. Started to demob to APR-4

1540. Started to demob to A2R2

1710. Started to demob to TOW

Prep eq/mot to demob be able to have
everything to start at the hill w/out needing
to get into the plant.

1800. left BMS

BMS - 10/16 J.W. Sample

P3/15

March 3, 2016

930. Got inside BMS w/ cheo, we had bought ice before entering
Went to get the multimeter

950. Got to Town. Start to prepare for today. Calibrate Multimeter

1045. Left to the hill

Sampling sequence

S-35

S-34

S-33

~1500. Stopped for sample at S-33.

Packed & went to the Town to pack samples for shipment to ACCTEST

COCl₃ were revised by D.L. w/ T. Taylor

1700. Left BMS to try to go to the fed office in Lagos

BMS 1016 - GW Sampling

P4/15

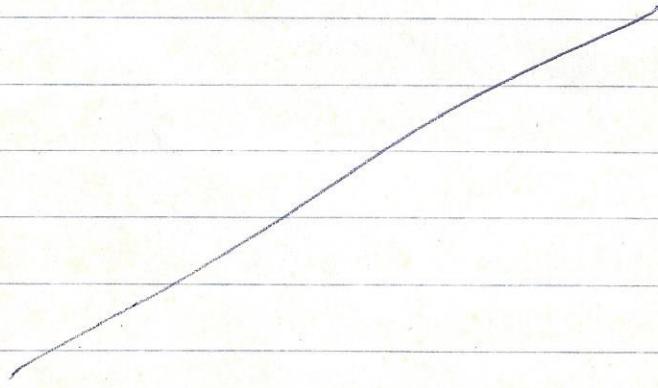

March 3, 2021

1635 - Delivered the cooler at the
FedEx office in Le Cersinie

1648 w/t Bms

Went to the storage to get
some materials (weed caps, vials
dispenser, tubes)

1720. w/t storage

BATS - 1016 gw sampling

P5/15

March 4, 2016

930. Got into Bats w/ clean
after getting GIE

Went to TOW to start packing eq/
mst., got corresponding
containers and calibrate multi-
meter

~1035. Left to MW-15

Sampling sequence

M.W.-15

1 17
1 14

M.W.-18

~1850. Went to TOW. to unload eq/mst
prepared containers and set them in
3 coolers. I will keep them for
the weekend

1945. Left Bats

BMS-191C SW Sample

PL/15

March 7, 2016

930. Got to gate C w/ Chao del Valle

Needed to wait for the clearance
of a vehicle (~10 min)

945 Got those gate C. Went to TOA.

There is a crew from Clear Harbors
and Fox. Burgos. They will perform a test
which requires to secure the whole area

We got clearance to celebrate the water &
load eq/materials needed.

1025 Left. TOA. Went to parking lot to work
w/ S-29R & S-31R2

There is a van and a car parked close to
S-31R2. Notified security. The guard
said there is no way to contact the
owner since they do not have and speaker
service in the plant.

Decided to move to S-29R

1300 - Relocated to S-31R2

BWS - 191L ~~Mo~~
sample)

3/15

March 7, 2016

1445. Left after sampling & loading
eggs. Went for lunch

1530. Stop at S/S. to get ice

1540. Got to BWS + tour

Unload samples (coolers)

Charge one cylinder

1620. Talked to D.L. @ DA/DC. In general
we need to take an EB/FB (both full set of
jars for Blg 5 and another for Bonde.

No more DA/DC needed after that.

We clean the two Marshall
pumps. Tour EB. Irrigate
the bladder

1651 EB 030716

1715. Bullock to S-30

1730 Got to S-30.

Due do the time I need to do S-30/
MW-11 so we start at S-30 to decide

BMS-1Q18 SW
Sample

P8/15

March 7, 2016

to Stop.

Left msg to Dr. L. @ my
decision.

Called Tammy M. from ACCUTEST
about the issue of keeping the EB fn
a 3rd day (Pesticides) [arrived at
the lab 2.5 days after collecting it.]

Went back to the TDH & started to
prep for the shipment to be
sent to the lab in N.J.

3/27/16 TB VOC /Alcohols , 2 sets of 2 (both 10:00)] FTF
20:14 - 3/27/16

2030. Completed preparing coolers.
for tomorrow

2045- h/t BMS

BMS-101L gas sampling

Pg/15

March 8, 2016

930. Entered BMS after getting IEE.

945 Not to TDU. Start to check the coolers w/ samples.

TB for Big S (VOC/Alcohols)

TB03P716 1428 [2/27/16 @ 1000]

~1100. Partially completed packing the samples we have at the TDU

David L. will come to the TDU to verify them.

1145. D.L. w/t to his office.

1220. Completed calibration and loading eq/MAT

Went to S-30

Set up.

When sampling, prepared a FB for all the parameters.

1430. Started to sample

1500. Left S-30

Buus - 1016 Yu
ssupply

P10/15

March 8, 2016

1520 Stop for wind., after getting
additional ice for the samples

1555 Back to Buus

West to MW-11

Sampled.

1830, left MW-11 to JOLN

Downloaded eq/mot

Discussed procedure for calibrating
multimeter

Prep jars for tomorrow

2020, left Buus

Balls 1416 grid sampling

Pb / 15

March 8, 2010

915. Got to gate C, after purchasing
ju. Went to TDU.

Ches entered Balls at 7⁰⁰ am
to start preparing to do fw; cat eq.

Metaw/ Ches at MW-13 all set up.
Sampling sequence was
MW-13, 7, 3 and 5.

1545. Go to TDU & download eq/MAT.

1600 Stop for lunch

1645 Set up at MW-16.

1902- Moved off TDU to download eq.

Store samples in cooler, Discard
purged water

2100- Left Balls

BMS 1Q16 gw Samp.

P₂₂/15

March 10, 2016

We were out of Bay

Packed coolers

Delivered them to FedEx for
shipment to NJ + Mass.

Buus 1014 gw Sampling

P13/
15

March 11, 2016

825. Got to Buus' Gate C w/ Chas.
We have purchased ice.

910. Passed gate C, went to room
and to shipping to get orders, sent
from the lab

- Calibrated instruments
- Decor Marshall pump,
- took EB (full)
- Segregated bottles

1140 - Lift ton to the area where
Brule wells are

Completed gw sampling at BR-1, BR-2
w/out problems.

1710 When purging BR-3 well no day
there were several communications regarding
sampling BR-3 (w) T. Taylor & D. L.)
WL is recording

1746 - After the consultation, it is agreed to
sample.

BAMS 1 SA 16

P14) 15

March 11, 2016

1830 - 1900. Rained v. hard.

Needed to stop field activities

1902 Demobilized to Ton to order 2
19. Inst. Prep 3 coolers to
store samples over the weekend. &
will keep them & check for ice

2015. Left BAMS.

March 14, 2016

930. Got to BAMS after buying ice
Met w/ Chio at S-38. Sampled the
wall.

Mobilized to Ton to prep coolers w/
bottles from the Brule Area

1115. Left BAMS to eat & get ice for
completing packing the coolers.

1200 - Got to S-38 to get ice

1225 Completed packing. Went to S. Hill

Sampling sequence
